SUMMARY

I'm a **Senior Front-end developer** with **+4.5 years** of experience building modern **web applications** using **Next.js** or **React.js** . I'm fueled by a passion for **solving complex problems**, **diving into intricate challenges**, and crafting clean, **scalable solutions** that deliver seamless **user experiences**. My sweet spot is **transforming complex design systems into intuitive, high-performance applications** whether it's leveraging React's component-driven architecture for dynamic single-page applications (**SPAs**) or harnessing Next.js's server-side rendering **SSR**, static site generation **Ssg**, and API routes for fast, **SEO-friendly**, and **scalable websites** with **optimized performance** and robust data handling. I've got a **sharp eye for detail**, a **knack for collaboration**, and a **lot of heart for working with teams** to bring projects to life. I'm **always eager to learn**, constantly **exploring new tech and best practices** to **keep my skills fresh** and stay ahead in the fast-moving world of **web development**.

SKILLS & TECHNOLOGIES

Front-End

HTML - CSS , JavaScript - TypeScript - React.js - Next.js - TanStack Query - Axios - Tailwind CSS - Bootstrap - Zustand - Figma - MIU - Framer Motion - shadcn/ui - swiper - Leaflet - Ant Design

Back-End

Node.js - Express.js - Nest.js - SQL - PHP - Prisma - MongoDB - PostgreSQL

DevOps & Tools

Git - GitHub - Docker - Postman - Swagger

SOFT SKILLS

Time Management – Responsible – Open mind – Team work – Attention to detail

Commitment to work – Continuous learning

WORK EXPERIENCE

Miznex - Italy - Senior Front-End Engineer

dec/2025 - Present

- **Architected dual interceptors** (Server/Client) with **centralized error handling**. Built **more reusable components** like tables with pagination, search, filtering, and **custom hooks** like useDecodeToken , all **Maked for team adoption**.
- Developed **complete many Pages** like **All Admin Panel** and **restaurant category management** page **from scratch (UI to logic)** with **full CRUD operations** .

- **Implemented guest access** (no-login), **full dark mode for All Panels**, and **responsive fixes across the entire Project** & the parts that needed redesign were redesigned.
- **Integrated i18n for 20+ languages** across all panels. **Added optimized fully metadata** to All pages — **significantly improving SEO**.
- Audited and **fixed multiple performance bottlenecks** across the dashboard — delivering noticeable UX improvements and **resolving all cross-cutting bugs**.
- **Mentored frontend developers** (task review, guidance, assignment) and **collaborated seamlessly** with design, backend, and marketing teams to **ensure timely delivery**.

Hexorix - Estonia - Front-End Developer

Oct/2025 - Jan/2026

- **Collaborated in a cross-functional team** to **build a large-scale dashboard** and make responsive pages with **pixel-perfect UI implementation**.
- **Built a reusable component library with UI components** (modals, tables, forms) — cutting development time across the team significantly.
- **Established strong connections with all team members** — **creating a trust-based environment** that improved collaboration and **feature delivery speed**.
- **Gained recognition from peers** and leads **by writing clean, self-explanatory, and well-structured code** — making my modules easy to review, debug, and build upon by other developers.

Sepehr Academy - Iran - Front-End Developer

Feb/2024 - Oct/2025

- **Orchestrated 200+ API calls** using **TanStack Query** across the platform — achieving a **21% measurable boost** in **site smoothness** and **interactivity**.
- Participated in multiple enterprise projects using **React.js** and **Next.js** — delivering **web applications** with **optimized user experience** and **SEO**.
- **Built maintainable, reusable components** designed for **scalability across current and future projects**, **leveraging libraries** and packages for **cleaner, more efficient code**.
- **Integrated AI-driven features** including **voice assistant** and intelligent **ChatBot** for instant user query responses. **Implemented multi language** support for **global accessibility**.
- **Crafted cohesive UI** with Tailwind CSS and **thoughtful animations**. Engineered comprehensive admin dashboard using **Vuexy framework** — empowering **full site management** and operational oversight.

Apanco - Iran - Front-End Developer

Jun/2022 - Jul/2024

- **Contributed** as a key member of a **four-person development** team, collaborating closely to implement **sophisticated design solutions** with precision and **creativity**.
- Leverage JavaScript & TypeScript to craft interactive components that **enhance user experience** and drive deeper engagement across the interface
- Dedicated to crafting intuitive user experiences that empower users to achieve their goals effortlessly and with maximum efficiency. Every design decision is driven **by a commitment to clarity, speed, and user satisfaction**.
- In the last 9 months that I have been at this company, I have learned React.js well and have done several projects with it.
